Public Safety Committee Meeting

August 11th, 2016

International District

Milton Martin, Captain
### Crime Analysis & Command Center Division

Public Crime Mapping Websites

Reasons for Public Crime Mapping Websites

- Provide current crime data to the public

- Users can search for crime by address

- Visual aid to present crime data in a more friendly and concise manner

- Sex offender locations and photo information

- Creates transparency with the public

Previous Mapping Website:

Features Lacking from My City - Recent Crime

Created by City of Houston GIST

- Ability to print out more detailed crime reports and maps
- Crime Alerts to the public (Email/Text)
- Tip reporting from within website
- Simpler search options for end users
- Additional agency participation in supplying crime data
- Sex offender locations and photo information
- "App" to use on mobile devices

New Mapping Websites:

Features on Both Sites

**CrimeReports™**   **RAIDSONLINE** POWERED BY BAIR ANALYTICS

- User can search for specific addresses
- Allows citizens to register to receive official email alerts
- Pre-calibrated to show the exact geographical boundaries lines that illustrate our jurisdiction (Beat, etc.)
- Offers free access to mobile applications ("app") for mobile devices
- Uses Google Maps (relatable)
- 180 days worth of crime data available to view
- Crime is updated every 30 minutes, 24/7/365

# Feature only on CrimeReports™

Ability submit a crime tip

Agencies that Publish Data on *CrimeReports*:
