Seeds For Change is a small grant initiative that anchors Neighborhood Centers Inc.'s commitment to cultivating closer relationships with Houston's many cultural organizations and partners. Join us at our first public meeting to learn more about this initiative. We will be accepting proposals from organizations, groups, and individuals who seek financial assistance for up to a maximum award of \$2,000 to support events and/or projects that grow community engagement within cultural groups. We will be answering questions and assisting with completing the application. For further details and the complete application packet go to [www.neighborhood-centers.org](http://www.neighborhood-centers.org) or email [seedsforchange@neighborhood-centers.org](mailto:seedsforchange@neighborhood-centers.org) or call (713) 558-6374.
